Project Development Phase
Model Performance Test

Date	09 November 2023
Team ID	593524
Project Name	Visualizing And Predicting Heart Diseases with an Interactive Dash Board
Maximum Marks	10 Marks

Model Performance Testing:

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	No of Visualizations / Graphs - 14
2.	Data Responsiveness	Dashboard is static and is unresponsive.
3.	Amount Data to Rendered (DB2 Metrics)	1.5 MiB
4.	Utilization of Data Filters	Dimension Filter and Measure Filter are used in Visualizations. Ex: Yes or No filter; heart disease: Yes, Diabetic, Stroke: Yes
5.	Effective User Story	No of Scene Added - 14
6.	Descriptive Reports	No of Visualization / Graphs - Report is not applicable for this project.
